Report Period: Sep 17- Oct 8

Summary of Progress in this Period

This week, our team accomplished a range of tasks; we initiated three experiments: firstly, we successfully uploaded a pdf and viewed it on a website. Secondly, we efficiently filled in forms, transformed them into PDF files, and downloaded them on a website. We also tested the ChatGPT API calls to see how giving it Resume style prompts worked, further enhancing our understanding of AI integration. Additionally, we made significant progress on our project by making our lightning talk and project plan assignment, ensuring we remain on track and well-prepared for the upcoming milestones.

Pending Issues

Experiment with AWS and other hosting providers to figure out how we can best host our project.
